Discover the World of Ancient Animal Parents

Meet Dino, the protective dinosaur mother who guides her young hatchling through the perils of a primeval forest. Witness the extraordinary parenting skills of Smilodon, the saber-toothed cat, as she teaches her cubs to hunt and defend themselves.

Meet the Animal Kids of Prehistory

From the playful antics of baby ground sloths to the mischievous adventures of young woolly mammoths, this book captures the unique personalities and behaviors of prehistoric animal kids. Learn about their feeding habits, games, and the challenges they faced growing up in harsh and unforgiving environments.

Uncover the Secrets of Animal Family Life

Delve into the fascinating social dynamics of prehistoric animal families. Discover how parents and offspring communicated, formed strong attachments, and worked together to overcome adversity.

Exploring the Book's Key Features

Exceptional Artwork:

Stunning, lifelike illustrations bring the animals and landscapes of prehistory to vivid life, allowing readers to immerse themselves in the book's immersive storytelling.

Informative Text:

Written by leading paleontologists and educators, the text is both engaging and educational, providing a comprehensive understanding of animal family life in prehistoric times.

Captivating Sidebars:

Fun and informative sidebars delve into specific aspects of animal behavior, ecology, and evolution, further enriching the reading experience.

Educational Value and Entertainment in Equal Measure

Animal Kids and Their Parents: From Dinosaurs Through the Ice Age

is not just a captivating read; it's also an invaluable educational resource for students of all ages. By exploring the lives of prehistoric animals, readers gain insights into the history of life on Earth, the importance of family, and the remarkable diversity of nature.

Whether you're a dinosaur enthusiast, a budding paleontologist, or simply fascinated by the marvels of the natural world, this book promises to captivate and inspire.

Praise for the Book

"A fascinating and engaging journey that brings the world of prehistoric animal families to life. A must-read for anyone interested in dinosaurs, wildlife, or the evolution of life on Earth." - Dr. Jack Horner, Paleontologist and Professor, Montana State University

"This beautifully illustrated book is a testament to the power of storytelling in science education. Children and adults alike will be enthralled by the adventures of these ancient animal families." - Dr. Jane Goodall, Founder, Jane Goodall Institute
